SAFETY DATA SHEET

Section 1: Chemical Product and Company Information

1.1 Product Identifier
Product Name: KaiPow

1.2 Relevant Identified Uses of the Substance or Mixture and Uses Advised Against
Product Use: Water based cleaner

1.3 Details of the Supplier of the Safety Data Sheet
Manufacturer: Kaivac Cleaning Systems
401 South Third St.
Hamilton, OH 45011

1.4 Emergency Telephone Number: 800-287-1136
Telephone Number for Information: 800-287-1136

Email: 
SDS Date of Preparation/Revision: November 24, 2014

Section 2: Hazards Identification

2.1 Classification of the Substance or Mixture
EU Classification (1272/2008): Eye Damage Category 1C (H318)
Skin Corrosion Category 1C (H314)

EU Classification (1999/45/EC): C, Xi R41, R34

US OSHA Classification (29CFR1910.1200): Eye Damage Category 1
Skin Corrosion Category 1C

Refer to Section 16 for Full Text of EU Classes and R Phrases

2.2 Label Elements:

DANGER! Contains sodium hydroxide and surfactants

H314 Causes severe skin burns and eye damage.

Prevention:
P260 Do not breathe mists.
P280 Wear protective gloves and eye protection.
P264 Wash thoroughly after handling.

Storage:
P405 Store locked up.

Disposal:
P501 Dispose of contents and container in accordance with local and national regulations.

Response:
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contacts, if present and easy to do. Continue rinsing.
P310 +P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P310 Immediately call a POISON CENTER or doctor.
P303+P361+P353 IF ON SKIN(or hair): Take off immediately all contaminated clothing. Rinse skin with water or a shower.

Refer to Section 16 for Full Text of EU/GHS Classes and R Phrases/H Statements
The exact percentages are a trade secret.

Section 4: First Aid Measures

4.1 Description of First Aid Measures

First Aid

Eyes: Immediately flush eyes with water for at least 20 minutes while lifting the upper and lower lids. Get immediate medical attention.

Skin: Immediately wash with soap and water until no trace of the chemical remains. Remove contaminated clothing and launder before reuse. Get immediate medical attention.

Ingestion: If conscious, rinse mouth with water and give 1 glass of water to dilute. Do not induce vomiting. Never give anything by mouth to a person who is unconscious or convulsing. Get immediate medical attention.

Inhalation: Remove to fresh air. If breathing has stopped give artificial respiration. If breathing is difficult have qualified personnel administer oxygen. Get immediate medical attention.

See Section 11 for more detailed information on health effects.

4.2 Most Important symptoms and effects, both acute and delayed: Causes severe eye irritation or burns with possible corneal damage and blindness. Skin contact may cause severe irritation or burns. Vapors or mists may cause irritation mucous membranes and respiratory tract with possible pulmonary edema. Ingestion may cause gastrointestinal corrosion, abdominal pain, nausea, shock or death.

4.3 Indication of any immediate medical attention and special treatment needed: Medical treatment is required for all incidents of contact or exposure.
Section 5: Fire Fighting Measures

5.1 Extinguishing Media: Use any media that is suitable for the surrounding fire.

5.2 Special Hazards Arising from the Substance or Mixture: Not flammable or combustible. Hazardous decomposition products may yield sodium and carbon oxides.

5.3 Advice for Fire-Fighters: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing for fires in areas where chemicals are used or stored.

Section 6: Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures:
Wear appropriate protective clothing as needed to prevent eye and skin contact.

6.2 Environmental Precautions: Avoid contamination of water supplies and environmental releases. Report spills as required to authorities.

6.3 Methods and Material for Containment and Cleaning Up: Contain and collect spill with inert materials such as commercial absorbent, sand or earth. Place in a suitable container for disposal. If permitted, neutralize and flush to sewer.

6.4 Reference to Other Sections:
Refer to Section 13 for disposal information and Section 8 for protective equipment.

Section 7: Handling and Storage

7.1 Precautions for Safe Handling:
Prevent eye and skin contact. Do not breathe spray mists. Use only with appropriate protective equipment. Immediately remove and launder contaminated clothing before re-use. Wash thoroughly after handling and before eating, drinking, smoking or using toilet facilities.

7.2 Conditions for Safe Storage, Including any Incompatibilities: Store in a cool, well-ventilated area away from incompatible materials.

7.3 Specific end use(s):
   Industrial uses: None identified
   Professional uses: None identified

Section 8: Exposure Controls / Personal Protection

8.2 Exposure Controls:

**Appropriate Engineering Controls:** General ventilation is generally adequate for normal use. Use local exhaust ventilation if needed to maintain concentration of hazardous constituents below recommended limits.

**Personal Protective Measures**

**Respiratory Protection:** Not necessary if workplace concentrations of hazardous constituents are below recommended limits. If the exposure limit is exceeded, an approved respirator should be worn. Respirator selection and use should be based on contaminant type, form and concentration. Follow applicable local or national regulations, in the US: OSHA 1910.134, ANSI Z88.2 and good Industrial Hygiene practice.

**Eye Protection:** Use chemical safety goggles and a full face shield where splashing is possible. Maintain eye wash fountain and quick-drench facilities in work area. Contact lenses pose a special hazard; do not wear contact lenses. If necessary, refer to U.S. OSHA 29 CFR 1910.133.

**Skin Protection:** Impervious gloves such as nitrile recommended where contact is likely. Wear protective clothing as required to avoid any skin contact when handling.

**Other protection:** None required.

---

### Section 9: Physical and Chemical Properties

9.1 Information on basic Physical and Chemical Properties:

**Appearance and Odor:** Clear blue liquid with a floral odor.

9.2 Other Information: None

---

### Section 10: Stability and Reactivity

10.1 Reactivity: Not reactive under normal conditions of use and storage.

10.2 Chemical Stability: Stable.

10.3 Possibility of Hazardous Reactions: None known.

10.4 Conditions to Avoid: None known.

10.5 Incompatible Materials: None known.
10.6 Hazardous Decomposition Products: Hazardous decomposition products may yield sodium oxides and toxic fumes of sulfur oxide and hydrogen chloride.

---

**Section 11: Toxicological Information**

11.1 Information on Toxicological Effects:

**Potential Health Hazards**

**Inhalation:** Mist and vapors may cause irritation to the eyes, mucous membranes and upper respiratory tract. High concentrations may cause severe irritation and pulmonary edema.

**Skin Contact:** May cause severe irritation and burns with reddening and pain. Prolonged or repeated skin contact with diluted solutions or mists may cause dermatitis.

**Eye Contact:** Liquid or mists may cause severe irritation or burns with tearing and blurred vision. Permanent damage and blindness may occur.

**Ingestion:** May cause gastrointestinal corrosion, abdominal pain and nausea, circulatory shock and death.

**Acute toxicity values:** Product ATE: Oral > 24900 mg/kg, inhalation (vapor) > 22 mg/L, dermal > 88828 mg/kg. (2-methoxymethylethoxy)propanol: LD50 oral rat > 5000 mg/kg, LC0 inhalation rat > 1.69 mg/L, LD50 dermal rabbit: 9510 mg/kg.

Sodium Metasilicate Anhydrous: LD50 oral rat: 994.7 mg/kg, LC50 inhalation rat > 2.06 mg/L/4hr, LD50 dermal rat > 5000 mg/kg.

**Skin corrosion/irritation:** Corrosive to skin

**Eye damage/irritation:** Product is damaging to eyes.

**Respiratory Irritation:** Prolonged inhalation may cause respiratory irritation.

**Respiratory Sensitization:** Not known to be a sensitizer.

**Skin Sensitization:** Not known to be a sensitizer.

**Germ Cell Mutagenicity:** This product is not expected to present a risk of genetic damage

**Carcinogenicity:** None of the components is listed as a potential carcinogen by IARC, NTP, OSHA or the EU CLP.

**Developmental / Reproductive Toxicity:** No specific data is available.

**Specific Target Organ Toxicity (Single Exposure):** No specific data is available.

**Specific Target Organ Toxicity (Repeated Exposure):** No specific data is available. No adverse effects are expected.

---

**Section 12: Ecological Information**

12.1 Toxicity:

(2-methoxymethylethoxy)propanol: Poecilia reticulate LC50 > 1000 mg/L/96hr

Sodium Metasilicate Anhydrous: Gambusia affinis LC50: 2320 mg/L/96hr

12.2 Persistence and degradability: Surfactants are readily biodegradable.

12.3 Bioaccumulative Potential: No data available.

12.4 Mobility in Soil: No data available.

12.5 Results of PBT and vPvB assessment: None required.
12.6 Other Adverse Effects: No data available.

Section 13: Disposal Considerations

13.1 Waste Treatment Methods:
Dispose in accordance with all local, state and national regulations. Local regulations may be more stringent than regional and national requirements. It is the responsibility of the waste generator to determine the toxicity and physical characteristics of the material to determine the proper waste identification and disposal in compliance with applicable regulations.

Note: These products can be shipped under limited quantity provisions – refer to specific regulations for requirements.

14.6 Special Precautions for User: None identified

14.7 Transport in Bulk According to Annex III MARPOL 73/78 and the IBC Code: Not applicable.

Section 15: Regulatory Information

15.1 Safety, Health and Environmental Regulations/Legislation Specific for the Substance or Mixture

UNITED STATES REGULATIONS:

U.S. SARA Reporting Requirements: The components of this product are not subject to the reporting requirements of Sections 302, 304, and 313 Of Title III of the Superfund Amendments and Reauthorization Act.

U.S. SARA Threshold Planning Quantity: There are no specific Threshold Planning Quantities for the components of this product. The default Federal MSDS submission and inventory requirement filing threshold of 10,000 lbs (4,540 kg) therefore applies, per 40 CFR 370.20.

U.S. CERCLA Reportable Quantity (RQ): This product has a Reportable Quantity (RQ) of 20,000 lbs. (based on the RQ for Sodium Hydroxide of 1000 lbs present at <5%). Releases above the RQ must be reported to the National Response Center. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

U.S. TSCA Inventory Status: The components of this product are listed on the TSCA Inventory or are exempted from listing.

Other U.S. Federal Regulations: None
California Safe Drinking Water And Toxic Enforcement Act (Proposition 65): Ingredients within this product are not on the Proposition 65 Lists.
