Remove contact lenses if present and easy to do without injury to the eye and continue rinsing, if irritation persists obtain immediate medical attention, preferably from an ophthalmologist.

SKIN CONTACT: Wash contaminated skin with plenty of water. Remove any contaminated clothing and wash before reuse. If irritation is present or occurs obtain medical attention.

INHALATION: Remove person to fresh air, if they have problem breathing, show signs of overexposure or feel unwell obtain medical attention.

INGESTION DO NOT INDUCE VOMITING. If person is fully conscious give one to two glasses of water to dilute and obtain immediate medical attention. If vomiting occurs, keep head below hips to prevent aspiration into lungs.
