Rider Scrubbers

**Tomcat GTX Rider Scrubber**  
These tough, compact scrubbers offer the productivity of riders with better maneuverability than walk-behinds. The three disk machines, with 26", 30", and 34" scrub paths, offer gimbaled brush drive and 50% more scrubbing power than competitive brands. The four cylindrical decks are ideal for grout lines, rubber floors and sweep debris while scrubbing. The scrub deck has curtains and wipers, for unmatched water control. The side shrouds are made of thick steel and remove easily for brush access and adjustments. Available with The "Edge" oscillating head allows customers to prep and recoat floor finish without any chemical strippers, when used with our unique PREP PAD. The Edge head cuts water consumption during normal scrubbing by 70% for further environmental sensitivity. Has the tip back tank which allows access to batteries, vacuum motors, and actuators. Brush Motor Power: (2) 0.75 hp.

**Tomcat XR Rider Scrubber**  
The XR series rider floor scrubbers combine the productivity of rider floor scrubbers with the maneuverability of walk-behind floor scrubbers. Tomcats are designed to clean schools, malls, warehouses, retail outlets, while standing up to the daily rigors of contract cleaning. With two specialized cleaning systems to choose from, Tomcat rider floor scrubbers offer the performance and capacity required to clean your unique application. The two "Disk" machines, with 33" to 40" scrub paths, offer gimbaled brush drive and 35% more scrubbing power than competitive brands. The "Cylindrical" machines, offer all the performance of disk type rider scrubbers plus the ability to sweep the floor while scrubbing. The cylindrical scrub deck picks up wood chips, nails, broken glass, gravel, and metal chips. The debris is held in the convenient slide-out hopper, which permits easy disposal. The scrub decks include adjustable wipers and curtains, for unmatched water control. All components are made of heavy gauge steel.  
Motor Power: (2) 1.5 hp. (6) 325 AH batteries.

Carpet Care Systems & Equipment

**Carpet Extraction Cleaner**

**Simplex® Double Play Multi Use Extraction Cleaner**
An environmentally responsible, anti-soil, multi-purpose carpet cleaner concentrate for use as a pre-spray and extraction cleaner. Low foaming. Contains no VOCs, completely biodegradable. Pleasant fresh odor. EarthMate. EcoLogo®. This Carpet & Rug Institute tested and certified cleaner effectively removes soil without any damage to the carpet. The CRI Seal of Approval is awarded to carpet cleaning products that pass stringent tests administered by an independent, accredited institute.

**Simplex® Refresh Rinse & Neutralizer**
A specially formulated product with Advanced Gemini Surfactant Technology, used to rinse the carpet after extraction cleaning, shampooing, or bonnet buffing. EarthMate. EcoLogo®. This necessary step will remove any residue remaining in the carpet fibers and will further rinse on the acid side to prevent the carpet from oxidizing (turning brown), leaving a pleasant scent. Excellent for coffee, tea, and light rust stains. Safe on all carpet fibers including wool. Does not contain any optical brighteners. The new Gemini Surfactant technology delivers a product that neutralizes harsh alkali residues from previous cleanings, removes detergent residues from the fibers and gives the dry carpet a fresh clean feel.

**Simplex® Aqua Fresh Extraction Cleaner**
Powerful deep cleaning extraction type cleaner for heavily soiled carpets and fabrics. This is a highly concentrated formulation for all color fast fabrics.

**Diversey Extraction Rinse**
Flushes out and removes detergent residues that cause resoiling. Safe on all types of carpets, including wool. Colorless with a fruity floral scent.

**Enzyme Bacteria Products**

**Simplex® Odor Eater II Enzyme Odor Control**
Bacterial cultures naturally remove all odors at the source.

**Simplex® Catapult Encapsulating Spotter**
Encapsulating spotter used on stains then simply vacuum carpet when dry.

**NaceCare™ Just For Carpets Pre-Spray & Encapsulant**
Does not promote resoiling in your carpets. A true 3rd generation encapsulant. Uses dehydration phase cleaning which means soils and chemical residues (other products in the carpet) are dehydrated into a powder and can be easily vacuumed up.

**Carpet Pre Sprays**

**Simplex® Select Carpet Prep II Extractor/Prespray Cleaner**
Concentrated cleaner for cold or hot water extraction or spray-on application. Recommended for most commercial carpets and upholstery.

**Simplex® Pre-Treat Carpet & Upholstery Pre-Cleaner**
Contains a blend of non-flammable solvents and soil suspending agents. Cuts down on drying time.
## EnvirOx® Carpet Cleaner Concentrate
A complete carpet cleaning system in one, easy to use product. Removes browning, is a shampoo, spotter, traffic lane cleaner, deodorizer and neutralizer in one. Safe to use in a spin bonnet machine or an extractor. Encapsulating polymer. Biodegradable. Combines the amazing cleaning and deodorizing power of H2Orange2 technology with the re-soil fighting capabilities of an encapsulating polymer. The result is a process that leaves your carpet cleaner than you have ever seen it, then fights re-soiling by encapsulating residual cleaning agents and soils in a hard, brittle polymer that cannot be felt or seen. The encapsulated soils and polymer are removed with the next vacuuming of the carpet.

- **CBNW024**
  - Gal. 4/cs

## Diversey Heavy Duty Prespray
pH neutral cleaner for prespraying to loosen heavily soiled carpets. Contains soil repellent material to help reduce resoiling on carpet. Safe to use on all carpets including wool. Fruity fresh scent.

- **BB8044**
  - Gal. 4/cs

## Carpet Shampoo & Cleaners - Rotary

### Diversey Carpet Shampoo / Rotary
High foam carpet shampoo. Powerful detergents and solvents strip soils from carpet fiber and the high foam carries soils to carpet surface for easy removal. Suitable for rotary shampooing and power cleaning. Also suitable for dry foam cleaning. Pleasant fruity floral scent. 4 per case.

- **BB8014**
  - Gal. 4/cs

### Carpet Defoamer

#### Simplex® Foam-Free Defoamer
A very effective agent for killing foam in recovery systems of carpet steam cleaners, automatic floor scrubbers, sinks, and wet/dry vacs. Highly concentrated, effective in small quantity additions. Suitable for use in all makes of equipment.

Simplex Earthmate Mix Mate

Simplex® Mix-Mate Quad Dispenser With Back Flow Prevention
The Mix-Mate Quad Dispenser delivers an easy to use dilution control system. The features of this unit are many and so are the user benefits. These pre-plumbed units do not require installers to connect a mess of water lines to different chemical compartments. Simply hang this unit with the included mounting template, connect your main water supply and you are on your way! The single key locking cabinet houses four chemicals which can be selected by turning a dial, and switching from large container filling to a quart bottle is as easy as the touch of a button.

CBMP900

Simplex® Mix-Mate Single Unit
With a space efficient design, the Mix Mate Single Unit is a single button chemical dispenser. This pre-plumbed dispenser includes a mounting template for easy hanging and the ability to connect multiple units together. The stainless steel hanging bracket not only provides stability for hanging the dispenser, but also for holding the selected chemicals. Upon opening, the unit can be set for quart bottle filling or large container filling.

CBMP905

Simplex® Mix-Mate Portable Foaming Unit
Flexibility is the key factor of the Mix Mate portable dispenser. Out of the box, this dispenser is ready to start filling quart bottles or large containers. After attaching the chemical and a water supply line, the one-handed operation of this unit helps make dispensing easy. A foaming accessory kit is available with this dispenser as well when chemical dwell times need to be extended on vertical surfaces.

Window Cleaning Equipment

IPC Eagle HydroClean™ Cleano 1’ Window Cleaning System
For cleaning and sanitizing walls, fixtures, mirrors and doors. Environmentally friendly, no chemicals. Economical, eliminates chemical costs. Indoor Ultra Pure Water Cleaning System is for indoor glass and non-porous surfaces. Reaches difficult areas without dripping on or having to move furniture. It combines the cleaning power of pure water and microfiber in a light, compact and entirely mechanical tool (no cords, no batteries, etc). Keeps glass clean longer. With no chemical residue being left behind on the glass dirt will not be attracted, reducing the frequency of cleaning intervals. Fill with pure water from HydroTube™, Hydro Cart or Ready Pure systems.

**Velcro Mop (Hook Mop) System**

**Microfiber Hook & Loop Velcro Mop Pads**

Has all the benefits of microfiber without having to replace standard frames and handles. Cut-end microfiber with fringe top picks up larger particles of dust and trash. Poly-canvas backed microfiber mops attract and hold dust that cotton mops leave behind. The mop attracts dust electrostatically and requires no treatment. Extra padding in the mop allows for complete surface contact. Canvas backing is color coded by size. Velcro backing, for use with microfiber bases.

### Buckets & Wringers

#### Bucket Wringer Combos

**Bucket Wringer Combo 26-35 Qt. Bucket w/3” Casters**

Provides large mop target area. Molded from high density polyethylene for durability and corrosion resistance. Single bail allows heavy loads to be lifted. 18 3/8” L x 15 5/16” W x 14” D. Unique inboard caster configuration keeps bucket from marring walls or collecting dirt in and around side struts.

- **JSRM009**
  - 26-35 Qt. Side Press ea

---

**Rubbermaid® WaveBrake Bucket & Wringers**

The WaveBrake® mop bucket and wringer system reduces splashing, which means a safer environment, cleaner floors, and improved productivity. Tested to exceed 50,000 wringing cycles, average wringers perform approximately 860 cycles. Premium tubular steel and structural web molded plastic.

## NaceCare™ RBV130 Battery Back Pack Vac

A 1.5 gallon tank provides the capacity required to do the job. Compact, comfortable and light enough for anyone to use. Vac motor: 250 watt; Run time: 45 minutes. Charge time: 2.5 hours; Waterlift: 45”; Airflow: 50 CFM. Filtration 99.97% efficiency @ 0.3 micron; Weight: 16 lbs. The 250 watt vacuum motor with run time of 45 minutes ensures there is plenty of power and operational capacity. The 36 volt lithium ion battery can be interchanged with our canister units and charges in 2.5 hours. Its patented ribs on the inside of the tank ensure no matter how full the bag is we don’t lose suction since the bag is never allowed to seal against the side of the tank cutting of the flow of air. This is critical on battery powered equipment since we don’t have the luxury of high powered electric vacuum motors to pull the dirt through the bag. Kit includes 5’ Nuflex hose, s/s telescopic wand, and 12” All Brush Tool with wheels.

Protein Matrix products prevent fat, oil, and grease (FOG) buildup in pipes, lift stations, and grease traps and control odors through the prevention of hydrogen sulfide-producing scums. Our formulations, which contain no bacteria or enzymes, react with FOG molecules to produce a flowable non-foaming byproduct that will not re-solidify and is also easily digestible by WWTP microorganisms, which leads to higher digestive efficiency and less distortion and fluctuation in bacterial populations.

Application of Protein Matrix provides the following benefits:
- elimination of FOG-related maintenance
- odor control
- reduced foaming
- improved settling
- improved oxygen transfer
- cleaner effluent
- FOG-free filters
- increased efficiency
- reduced hydrogen sulfide

Unlike bacterial or enzyme-based products, which can lead to re-accumulation of fat in difficult-to-access areas when the temperature, salinity, or pH changes, Protein Matrix is condition-independent.

How It Works
Due to their molecular properties, fats, oils, and grease are chemically-driven to stick together and accumulate within pipes, traps, interceptors and lift stations. This leads to clogs, sanitary sewer overflows, and labor-intensive repetitive maintenance and nuisance and emergency calls – often in the freezing cold or dead of night.

By preventing FOG buildup, Protein Matrix can reduce routine maintenance and eliminate emergency calls due to FOG clogs. The protein in our product disrupts the chemical force – preventing accumulation of grease balls – and reacts with individual FOG molecules to create a non-foaming liquid byproduct that will not re-solidify, will not harm collection systems or plant treatment processes, and is easily and efficiently digested by WWTP biology.

Protein Matrix and You
Protein Matrix is certified under NSF/ANSI 60 as safe to use in wastewater and potable water systems. It is derived from agricultural products, and is safe in many ways:
- water-based
- biodegradable
- non-toxic
- non-flammable
- non-carcinogenic
- solvent-free
- easy to use
- green

Protein Matrix products are not only green and safe, but also more powerful than the toxic chemicals currently on the market. Our plant-based materials and methods of formulation are the most advanced in the industry and will change the way you think about grease in your system – because you’ll never have to think about it again!

We welcome conversations with forward-thinking plant operators who want to hear about the success we’ve had with some of their peers.

There has been no accumulation of oil and grease in the wet well.
Our Wastewater Operations Superintendent is thrilled.

Using Protein Matrix can reduce the cost of grease mitigation and reduce the risk of clogs and overflows in your restaurant interceptor.

The scientific breakthrough and natural solution to transform FOG problems
Air Purifiers

**IT1500 Model Air Purifier (1500 sq. feet)**

Designed to improve indoor air quality by dealing with pollutants in a proactive way. Ball bearing brushless ultra-quiet motor with 3 fan speeds. Full function remote control. 100V-240V/50-60 Hz 30W operational. Electrical UL, CE, PSE, TUV, EK and RoHS compliant. Produces aggressive ionized oxidizers that are then distributed throughout your facility. This PCO (Photo-catalytic Oxidation) technology, using an enhanced ionization output, represents the newest generation of proactive air purification, is completely safe, unlike high levels of ozone, and effectively destroys mold, mildew, bacteria, viruses, odors, volatile organic compounds (VOCs) and the odors associated with them in the air and on surfaces.

**IT4000 Model Air Purifier (4000 sq. feet)**

Designed to improve indoor air quality by dealing with pollutants in a proactive way. Five fan speed with variable frequency drive for quiet operation. 100V-240V/50-60 Hz 45W operational. Ion generation: 1 million/cm3. Coverage under normal contaminated conditions 4000 sq ft. This air and surface purifier combines four different technologies to synergistically reduce contaminants in the air and on surfaces. Uses an enhanced ionization output which represents the newest generation of proactive air purification and surface purification. It is completely safe in all inhabited areas and effectively destroys mold, mildew, bacteria, viruses, odors and volatile organic compounds (VOCs) in the air and on surfaces.

Ice Melt & Winter Products

Ice Melt

**Simplex® Break Thru Ice & Snow Melter**
Blue colored for added visibility. Our most popular yet economical ice and snow melter. Melts to 25 below zero. Safe on most surfaces when used as directed. A little goes a long way. Leaves no white powdery residue. Works faster and longer. Prevents re-freezing. Nonflammable, non-toxic and biodegradable. USDA approved and EPA registered.

CAB100 ea

**Simplex® Enviro Melt Premium Ice & Snow Melter**
This custom white blend melts to 40 below zero. Contains additives to prevent refreezing. Starts working upon contact with ice and snow. Will not harm carpets, tile, rubber and stone floors. Non-corrosive and safe to metal surfaces and railings. Each pellet melts 47 times its own weight.

CAB038

**Simplex® Enviro Melt Premium Ice & Snow Melter**
White. This custom blend melts to 40 below zero. Contains additives to prevent refreezing. Starts working upon contact with ice and snow. Will not harm carpets, tile, rubber and stone floors. Non-corrosive and safe to metal surfaces and railings. Each pellet melts 47 times its own weight.

CAB039

50# Pail ea

**Mountain Organic Natural Ice Melt™**
Effective to -9 degrees F. Concentrated power begins to work immediately. Safe on concrete, vegetation and safe to handle. Clean to use, does not leave an oily residue. Safe for prolonged storage will not lose its effectiveness during prolonged storage or when opened.

CAB048

**Peladow® Ice Melt**
Unlike rock salt & potassium chloride, Peladow® calcium chloride readily attracts moisture from the atmosphere, allowing it to form a liquid brine very quickly and fan out beneath the ice, breaking its bond with the pavement. Other deicers lose their effectiveness quickly when they become diluted with water, but even when diluted to 20% concentration, Peladow® keeps working down to -4 degrees F. Penetrates & undercuts ice fast & keeps on working all the way down to -25 degrees F - long after other deicers have given up. Easier on concrete & vegetation. Doesn’t leave powdery residue.

SIMPLEX JANITORIAL STANDS FOR SOLUTIONS

For more than 40 years, the Simplex Janitorial success story has been written to satisfy every need of every customer. Our policy is simple...our job is your satisfaction.

You get what you need when you need it.

You get outstanding janitorial products, great prices, professional training and on-time delivery, same day if needed. At Simplex Janitorial, it's simply about the customer.

WHAT'S BEHIND THE SIMPLEX JANITORIAL NAME

• Best janitorial products in the cleaning industry
• Cost-saving, high-quality Simplex brands or top national brands...your choice
• Same day delivery...round-the-clock support
• Complete inventory...supplies and equipment
• Training programs to keep customers up and running

OUR SHOWROOM AND SERVICE DEPARTMENT

In our vast showroom you can test and purchase a broad spectrum of products from cleaning supplies to the most advanced cleaning machines. We service what we sell through our “Simplex Service Plus” equipment policy. Our specialists provide on-site equipment analysis and a comprehensive parts inventory to do repairs quickly and efficiently. If necessary, a field service expert will be provided until your machine is repaired.

OUR WAREHOUSE: WALL-TO-WALL SOLUTIONS

Our state-of-the-art warehouse is one more advantage that sets Simplex Janitorial apart. You can be assured of having the product you want when you want it. If we don’t have it...you don’t need it.

OUR SALES FORCE

SIMPLEX JANITORIAL LISTENS. Our highly trained and experienced account executives offer customized solutions that meet your individual needs. They have the right products and the right information to help you select what works for you. We hold regular customer satisfaction meetings to make sure we’re meeting your needs every step of the way. And our broad-based educational training sessions relate directly to today’s cleaning maintenance industry.

SIMPLEX JANITORIAL SUPPLIES: SIMPLY THE BEST

Whether you choose the best national brands or cost-saving, high-quality Simplex Janitorial brands, our products cover your cleaning needs from A to Z including:
• Carpet Care Systems
• Floor Care Systems
• Paper & Plastic Products
• Restroom Systems
• Maintenance Products
• Engineering & Maintenance Chemicals
• Full Range of Cleaning Machines
• Environmentally Preferred Cleaning Products

SIMPLEX JANITORIAL CLASSROOM AND ON-SITE TRAINING

In our new classroom or at your facility, you get the best hands-on training including: the most innovative cleaning systems and procedures, staffing, regulatory compliance, equipment operation and safety.

OUR DELIVERY ADVANTAGE

Same day delivery when you need it. We’re driven to serve our customers. Our fleet of trucks is on the road every day, with excellent on-time delivery every day.
